

Global Navigation - Using Aviation GPS Systems and ADS-B

This two hour seminar will provide a good overview of GPS, ADS-B and associated systems. Mr. Michael Kussatz of Garmin will be our presenter and will open the floor for Q & A. Should be a great time to ask the expert!

Directions: Park in the parking lot located just west of the flight line and between the main hangar and the operations building. Proceed into the main hangar via the center hangar door. Class room 7 will be at the far side of the hangar, next to the Spartan C-3 vintage aircraft. Meeting will be held in Classroom 7 or the Main Hangar. There is a map attached near the bottom of this notice.

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafetyTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
